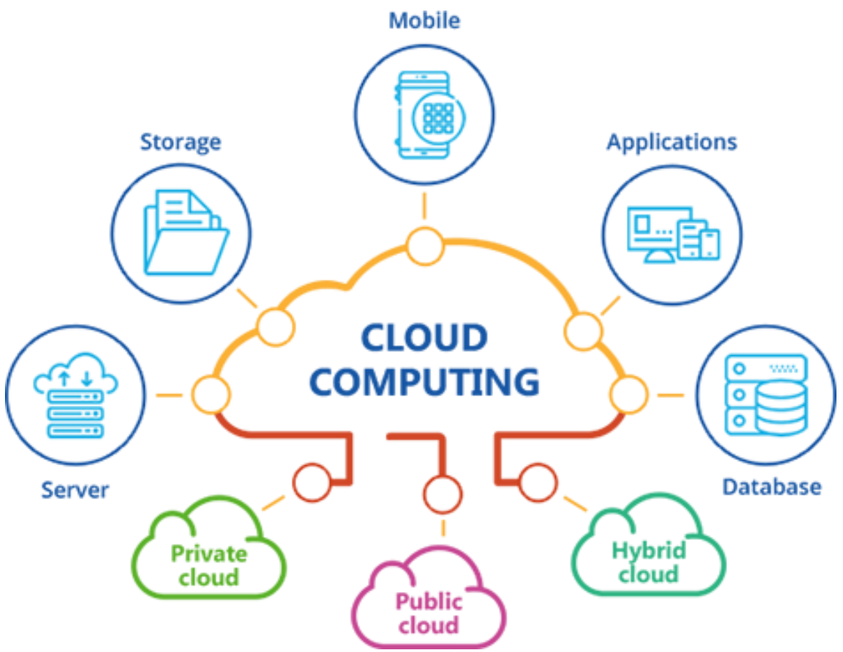
Introduction to Cloud Computing

©Simplilearn. All rights reserved.

simplilearn

What Is Cloud Computing?

Cloud computing is the on-demand delivery of IT resources over the Internet with pay-as-you-go pricing.



Cloud providers offer some major technologies, such as compute, network, storage, and databases.

Course Outline

The user will follow this path of learning:

01 Course Introduction

02 Manage Azure Identities and Governance

03 Design a Storage Solution

04 Deploy and Manage Azure Compute Resources

05 Configure and Manage Virtual Networking

06 Monitor and Backup Azure Resources

©Simplilearn. All rights reserved.

Course Components

©Simplilearn. All rights reserved.

Course Components

Simplilearn's comprehensive learning platform will provide the user with an in-depth understanding of the key concepts with the help of the following course components:

- Five Lesson-End Projects
- Two Course-End Projects
- 45+ Assisted and Unassisted Practices
- Knowledge Checks
- Two Course-End Assessments
- Six E-Books

©Simplilearn. All rights reserved.

Course Completion Criteria

01 The user must complete 85% of the course for OSL or attend one complete LVC batch

02 Complete and get one course-end project approved

03 Complete one course-end assessment with 80%
