

Lesson 03 Demo 01

Creating an Azure Key Vault

Objective: To create an Azure key vault to securely manage and store sensitive information

Tools Required: Azure account with administrator access

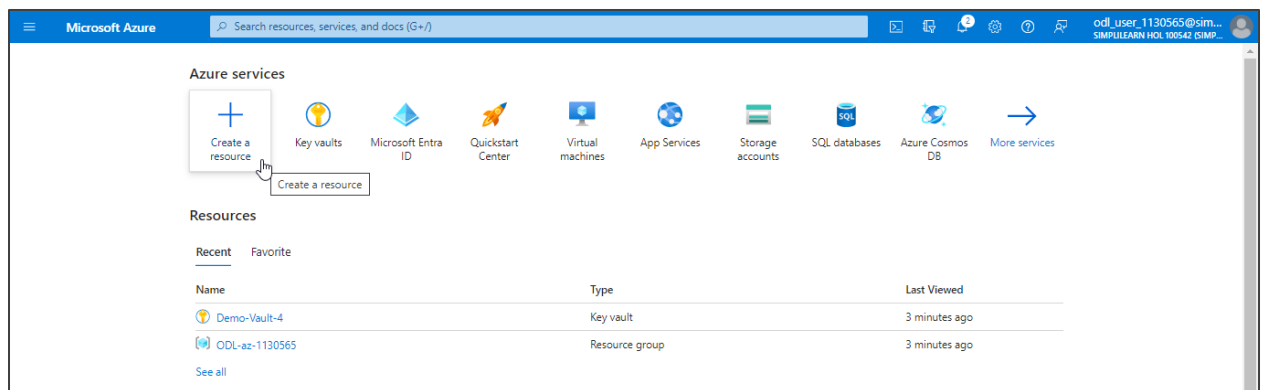

Prerequisites: None

Steps to be followed:

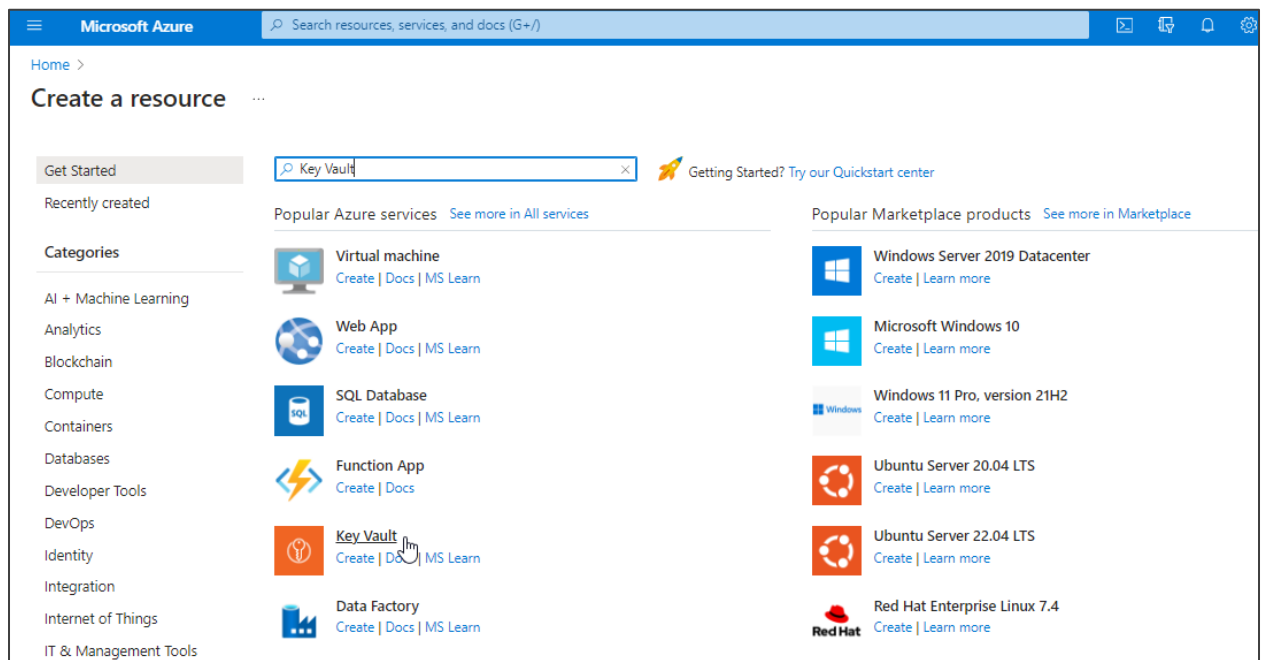

1. Create an Azure key vault

Step 1: Create an Azure key vault

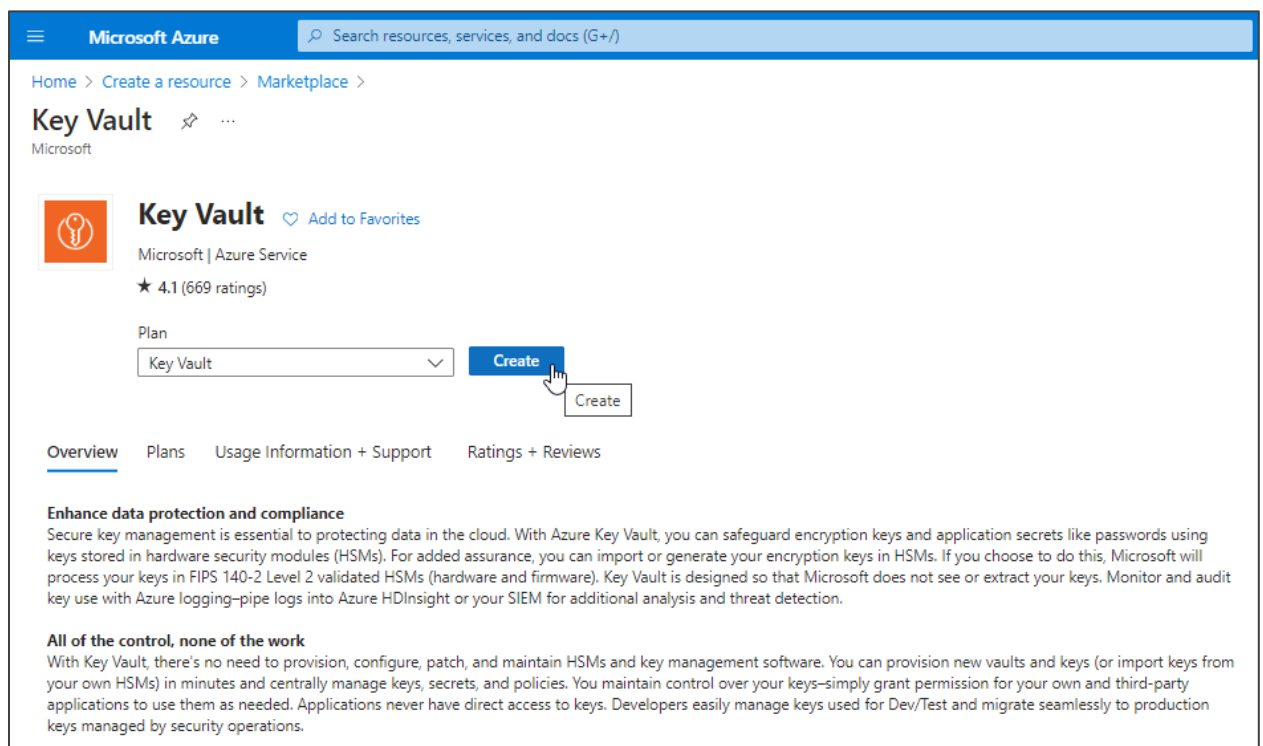

- 1.1 Log in to the Azure portal and click on + **Create a resource**

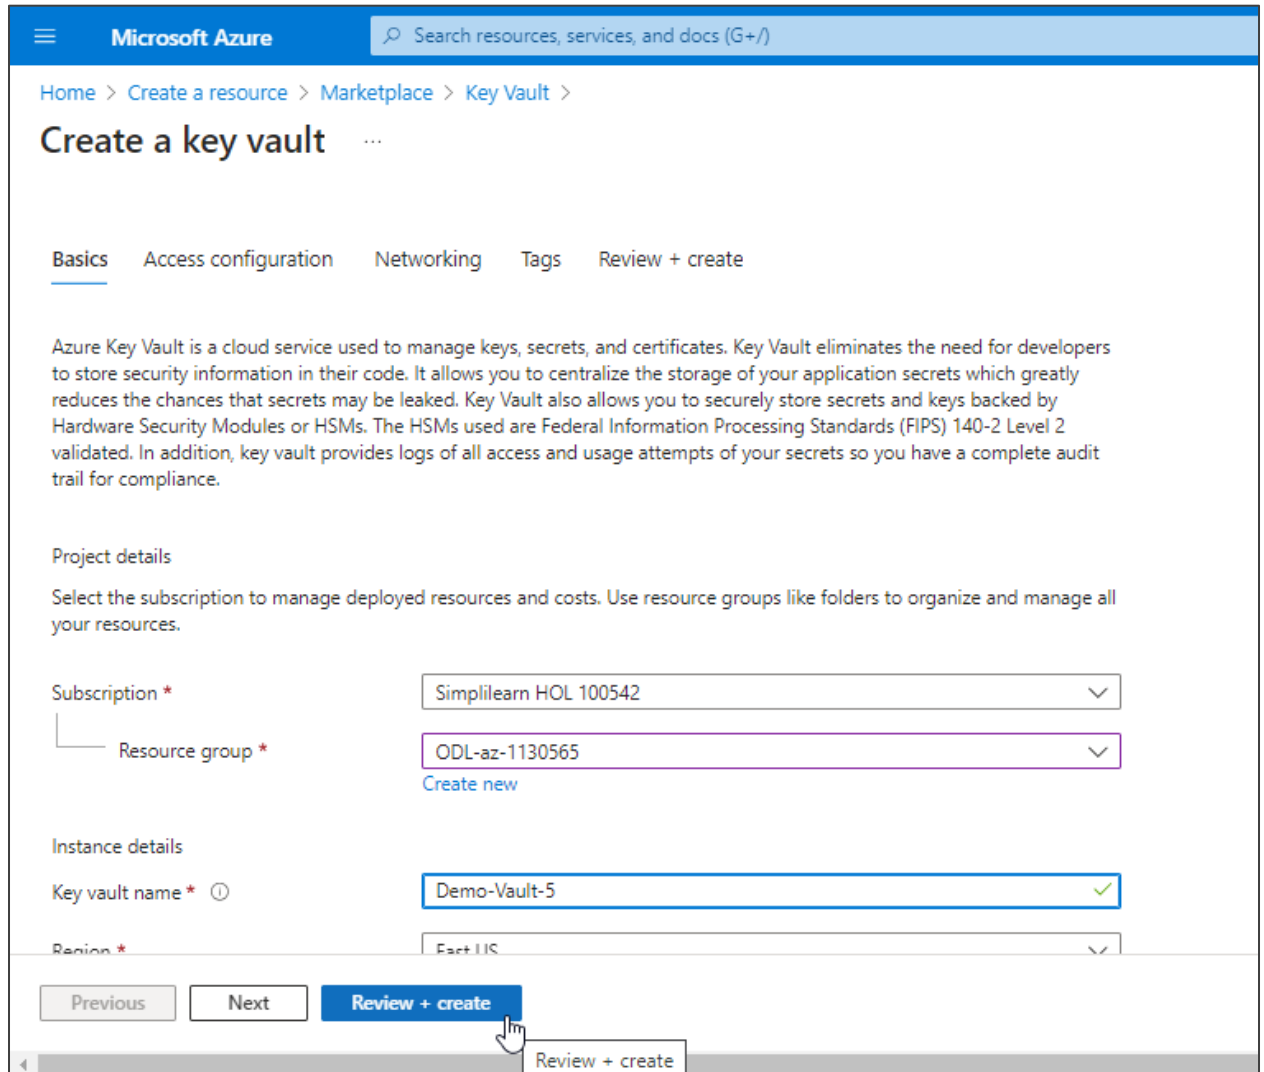

1.2 Search for **Key Vault** and click on it

1.3 On the **Key Vault** page, click on the **Create** button

1.4 In the **Create a key vault** page, under the **Basics** tab, fill in the details as shown in the screenshot below and click on **Review + create**

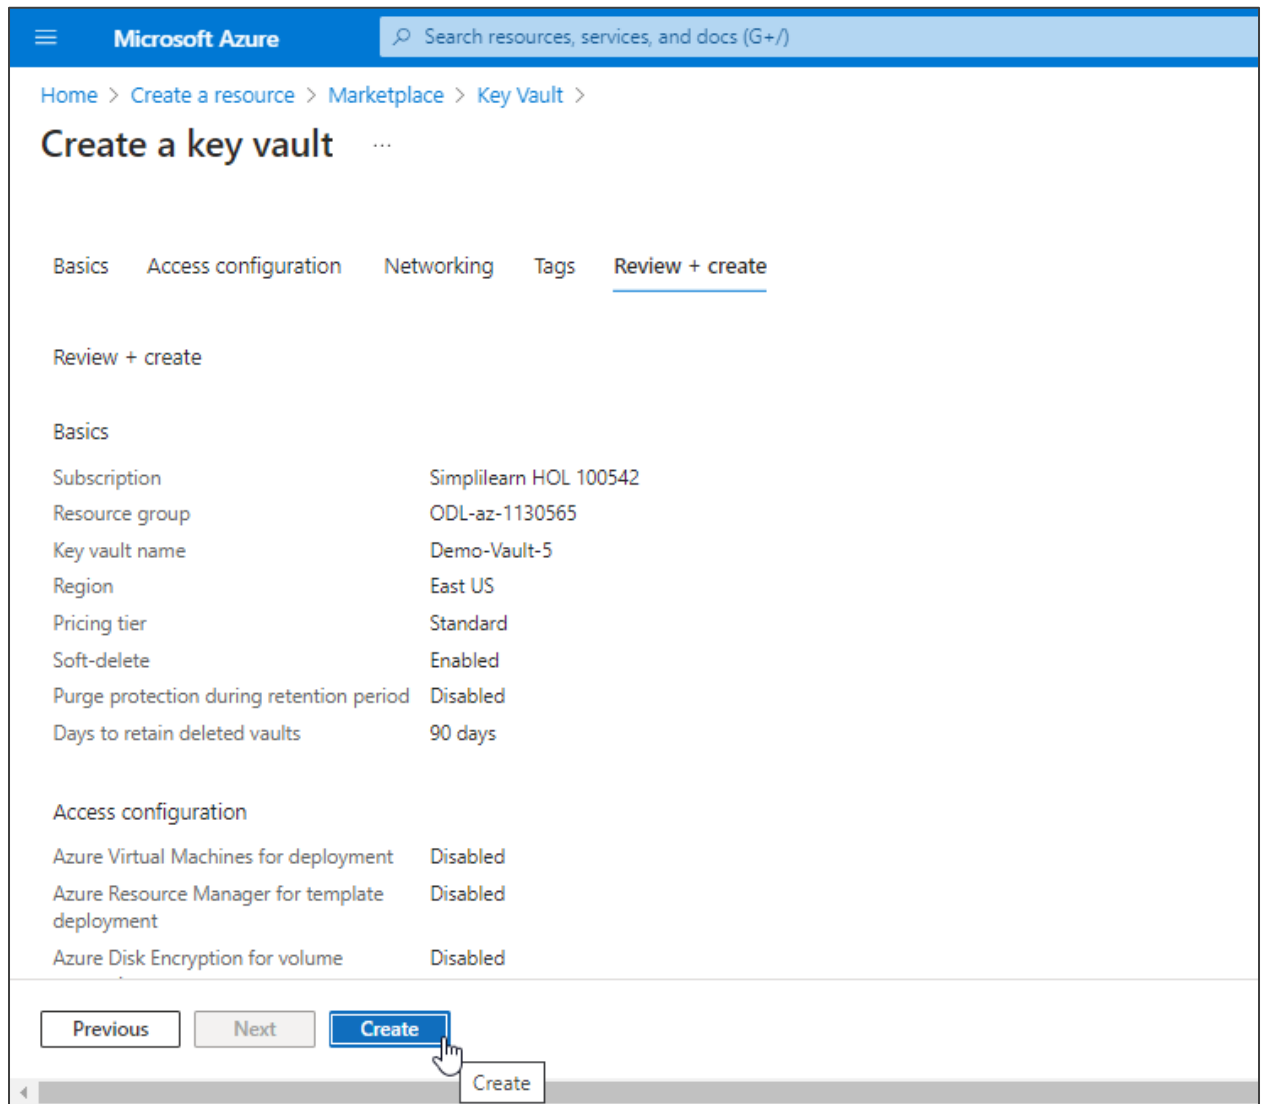

The screenshot shows the 'Create a key vault' page in the Microsoft Azure portal. The 'Basics' tab is selected, and the 'Review + create' button is highlighted with a mouse cursor. The form contains the following fields:

- Subscription ***: Dropdown menu showing 'Simplilearn HOL 100542'.
- Resource group ***: Dropdown menu showing 'ODL-az-1130565' with a 'Create new' link below it.
- Instance details**:
 - Key vault name ***: Text input field containing 'Demo-Vault-5' with a green checkmark icon.
 - Region ***: Dropdown menu showing 'East US'.

At the bottom, there are three buttons: 'Previous', 'Next', and 'Review + create'. A mouse cursor is clicking on the 'Review + create' button. Below the buttons, there is a progress bar with a 'Review + create' label.

1.5 In the **Review + create** tab, click on the **Create** button

Microsoft Azure Search resources, services, and docs (G+)
