

Lesson 03 Demo 05

Creating Microsoft Entra ID User Group

Objective: To create a user group in Microsoft Entra ID to simplify access control and permissions for specific teams

Tools Required: Azure account with administrator access

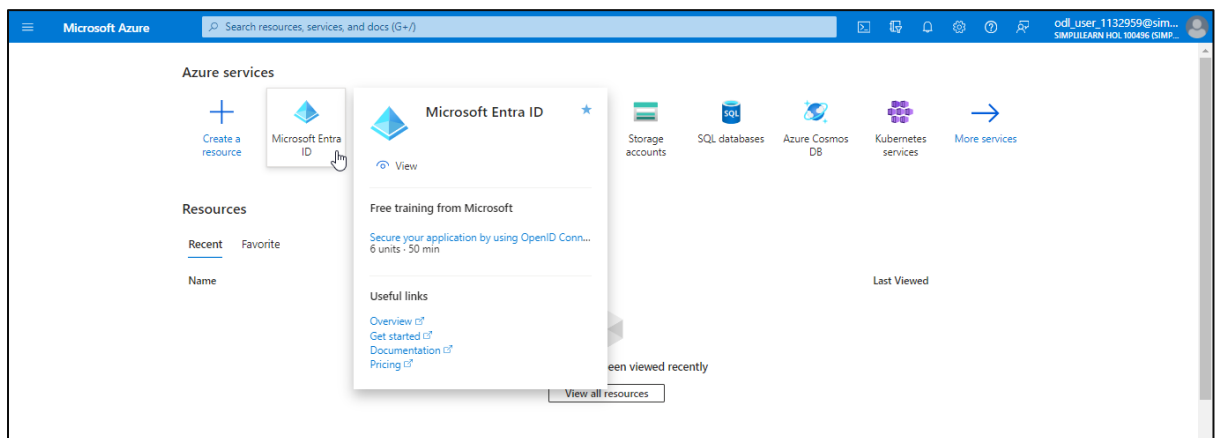

Prerequisites: None

Steps to be followed:

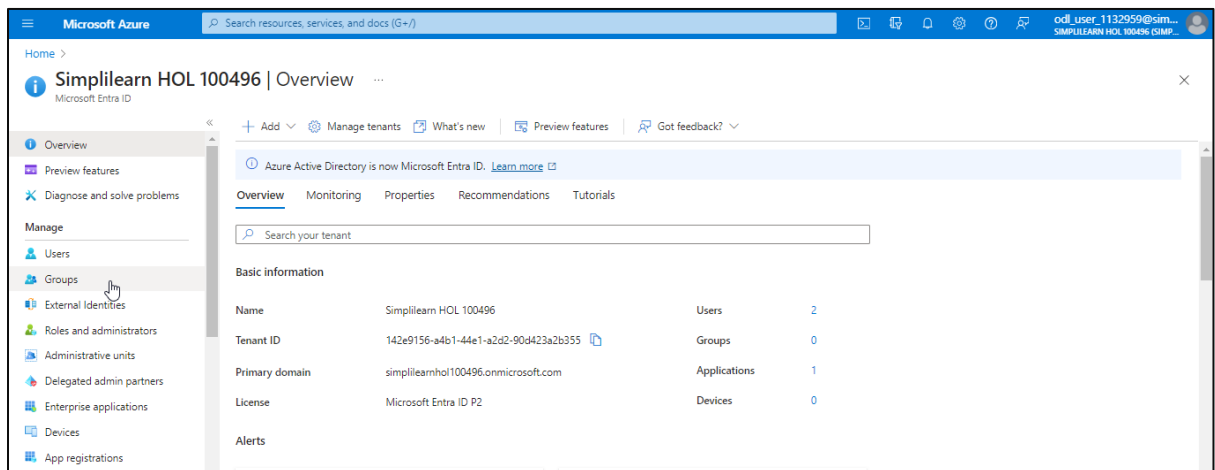

1. Create a user group in Microsoft Entra ID

Step 1: Create a user group in Microsoft Entra ID

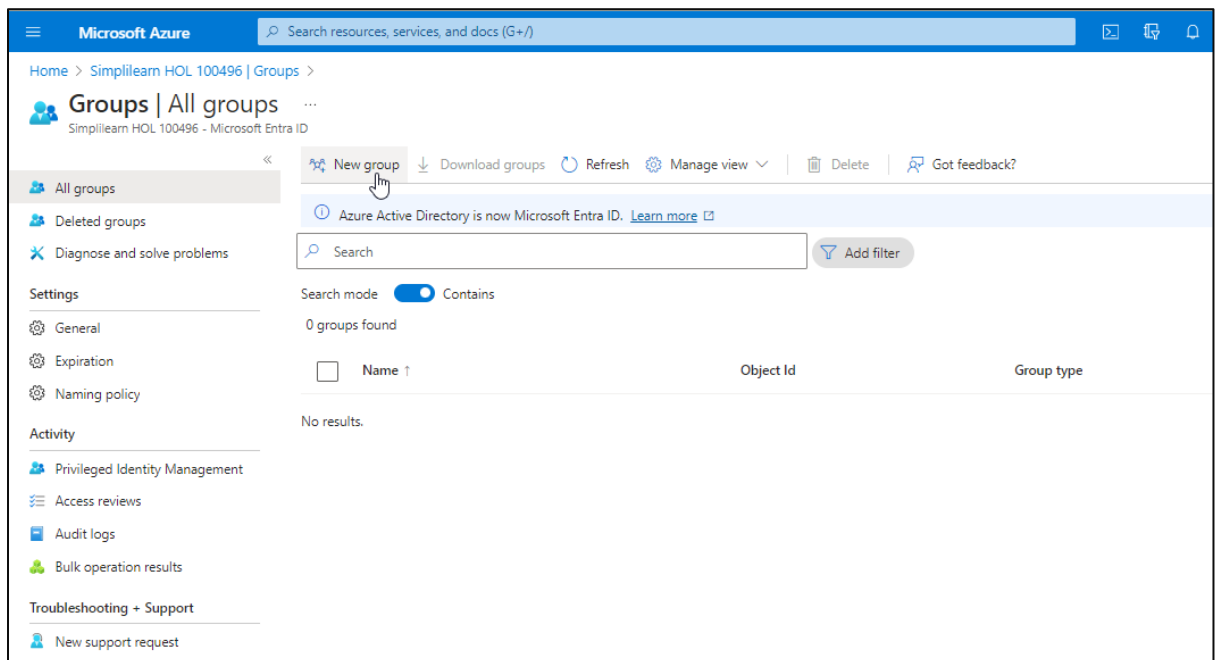

- 1.1 Log in to the Azure portal. Under **Azure services**, click on **Microsoft Entra ID**

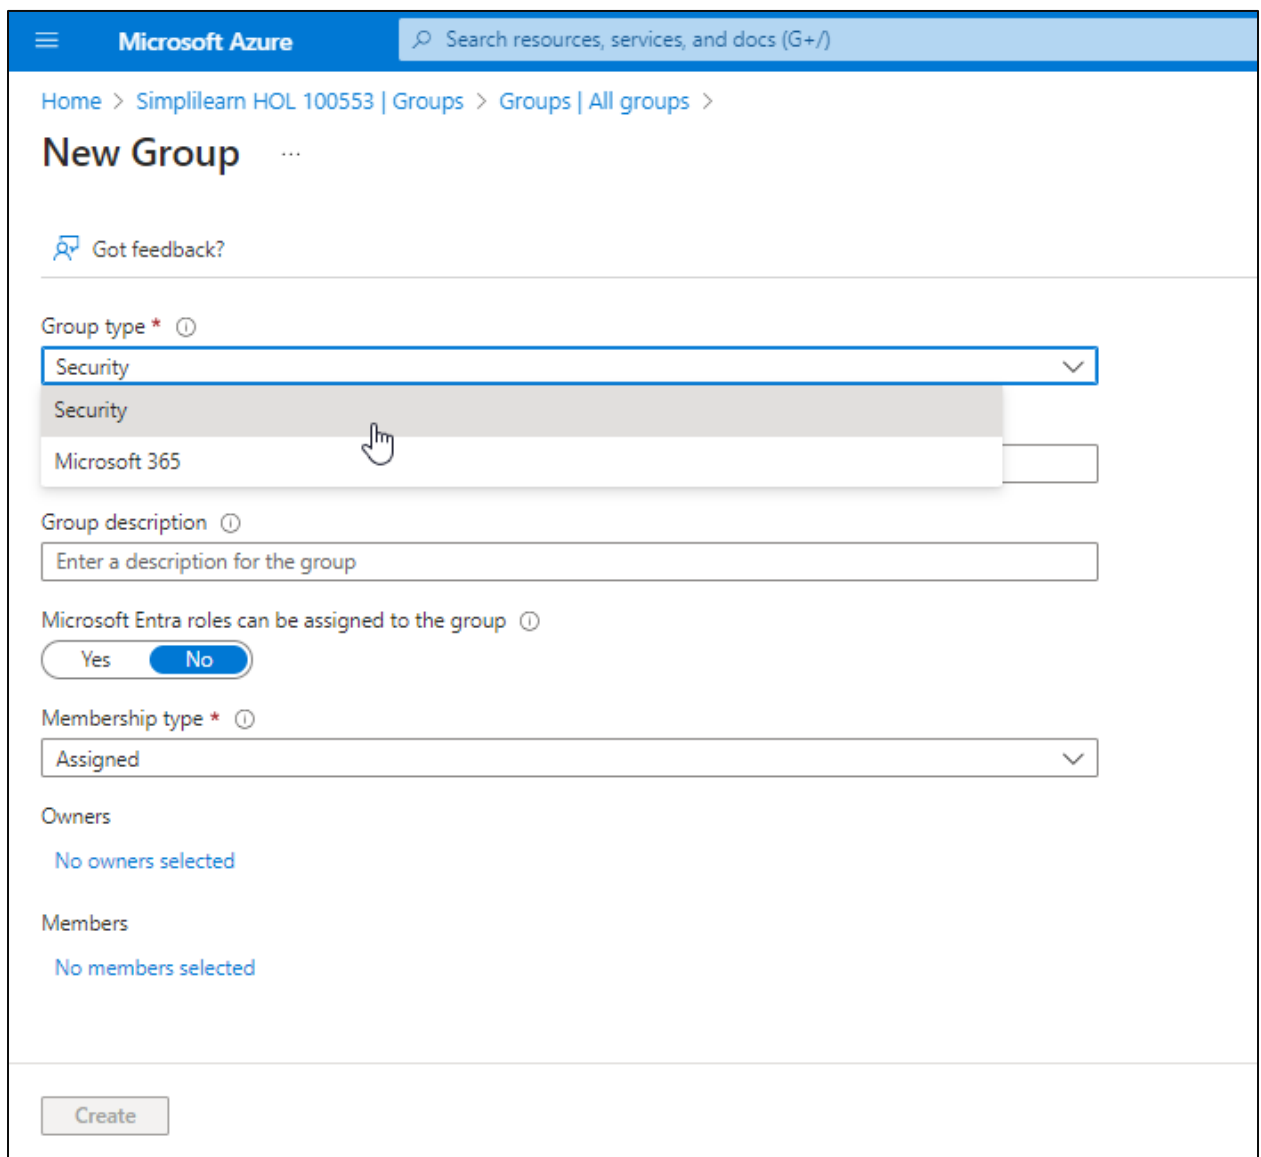

1.2 In the Microsoft Entra ID page, under the **Manage** section, click on **Groups**

1.3 In the **Groups | All groups** page, click on **New group**

1.4 In the **New Group** page, select a pre-defined **Group type** from the drop-down menu

Microsoft Azure Search resources, services, and docs (G+)

Home > Simplilearn HOL 100553 | Groups > Groups | All groups >

New Group

Create

Note: For **Group name**, choose a name that you will remember and that makes sense for the group. A check will be performed to determine if the name is already in use by another group. If the name is already in use, you will be asked to change the name of the group to avoid duplicate naming.

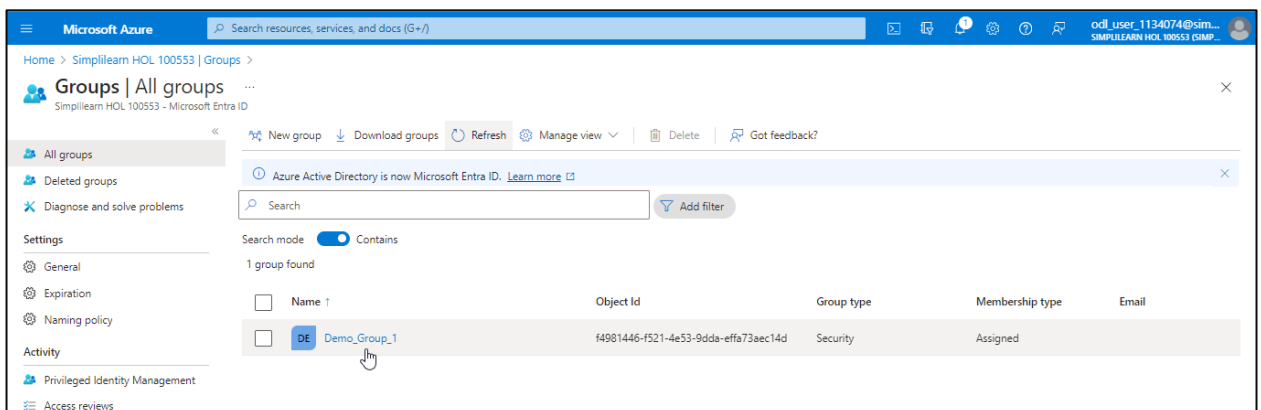

Add an optional Group email address for the group under **Owners**, or keep the email address that is filled.

Add an optional **Group description** to your group

After successful execution, the following screen will appear:

Note: If the newly created user group is not visible in the **groups found** list, click **Refresh**. The newly created user group will be visible as shown in the below screenshot:

By following these steps, you have successfully created the Microsoft Entra ID user group to simplify access control and permissions for specific teams.
