

Lesson 03 Demo 07

Creating Microsoft Entra ID Custom Domain

Objective: To create a custom domain in Microsoft Entra ID for enhanced identity management and brand consistency

Tools required: Azure account with administrator access

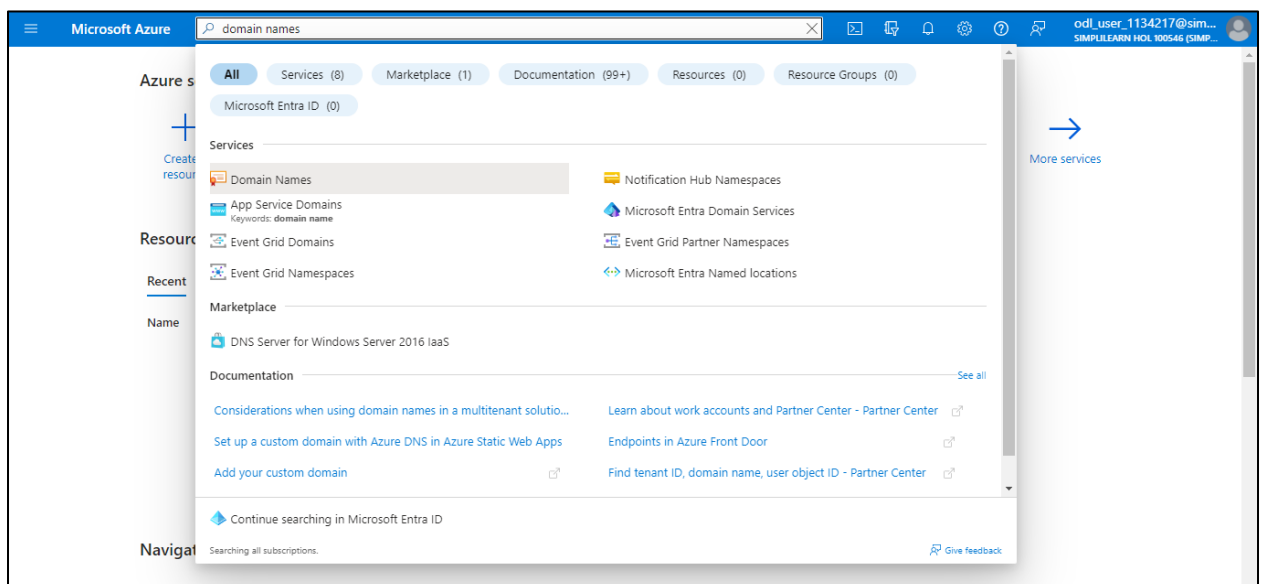

Prerequisites: None

Steps to be followed:

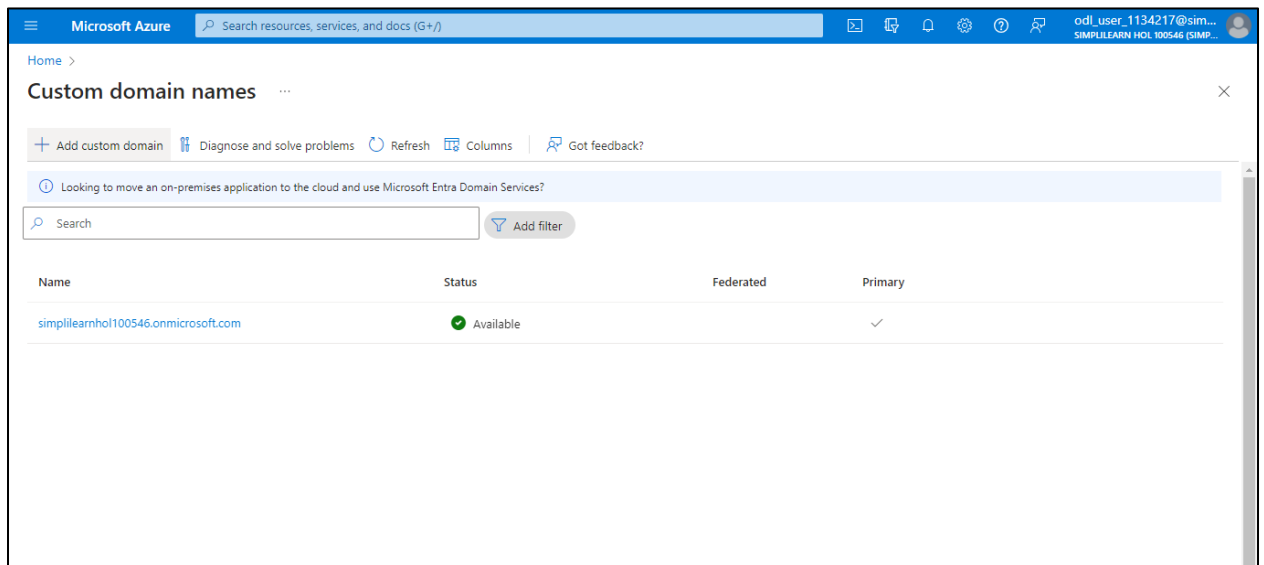

1. Create a custom domain in Microsoft Entra ID

Step 1: Create a custom domain in Microsoft Entra ID

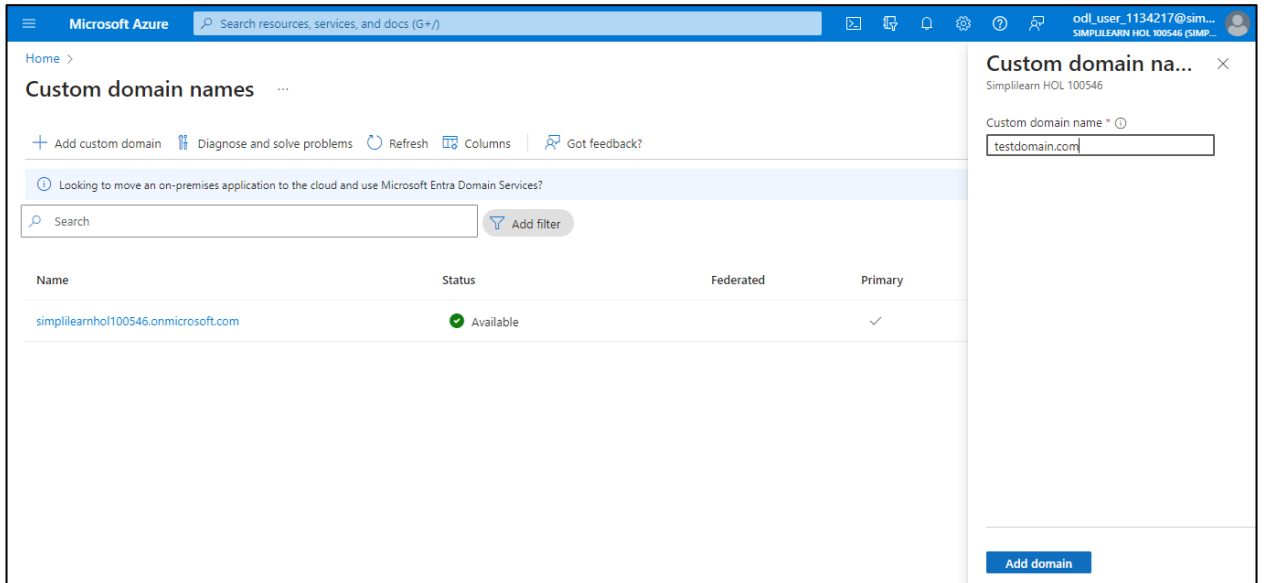

1.1 Sign in to the Azure portal, search for and select **Domain Names**

1.2 In the **Custom domain names** page, click on **+ Add custom domain**

1.3 In the **Custom domain name** panel, enter **Custom domain name** and click on **Add domain**

The unverified domain is added and a page with DNS information appears, as shown in the screenshot below:

The screenshot shows the Microsoft Azure portal interface for managing custom domain names. The breadcrumb navigation indicates the path: Home > Custom domain names > testdomain.com. The page title is 'testdomain.com' with a subtitle 'Custom domain name'. There are links for 'Delete' and 'Got feedback?'. A blue information box states: 'To use testdomain.com with your Microsoft Entra tenant, create a new TXT record with your domain name registrar using the info below.' The configuration form includes: 'Record type' with 'TXT' selected and 'MX' as an option; 'Alias or host name' with a text input containing '@'; 'Destination or points to address' with a text input containing 'MS=ms73635439'; and 'TTL' with a text input containing '3600'. Below the form is a link 'Share these settings via email' and a note: 'Verification will not succeed until you have configured your domain with your registrar as described above.' At the bottom is a 'Verify' button. A notification in the top right corner says: 'Domain name added' followed by 'Domain name 'testdomain.com' has been added to Simplilearn HOL 100546.'

Note: Save this data for future use in configuring a TXT record for DNS settings.

By following these steps, you have successfully created a custom domain in Microsoft Entra ID for enhanced identity management and brand consistency.
