

## Lesson 11 Demo 02

### Managing VM Sizes

**Objective:** To manage VM size for effectively managing computing resources

**Tools required:** Azure account with administrator access

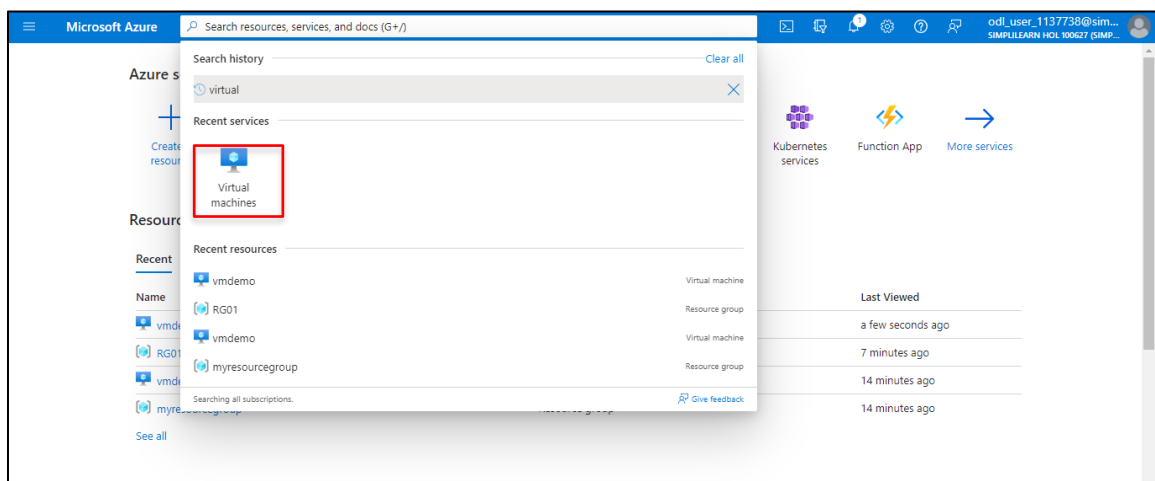

**Prerequisites:** Virtual machine

Steps to be followed:

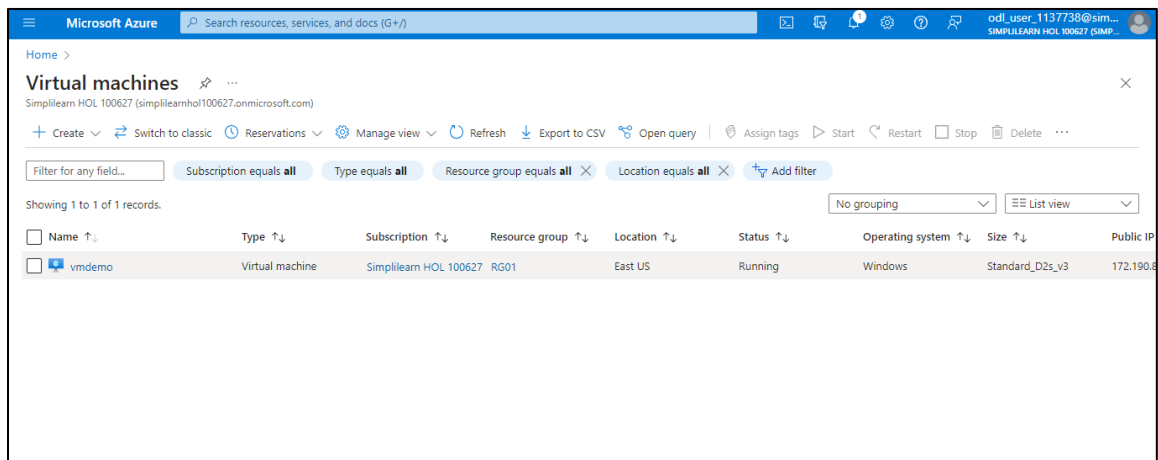

1. Manage VM size

#### Step 1: Manage VM Size

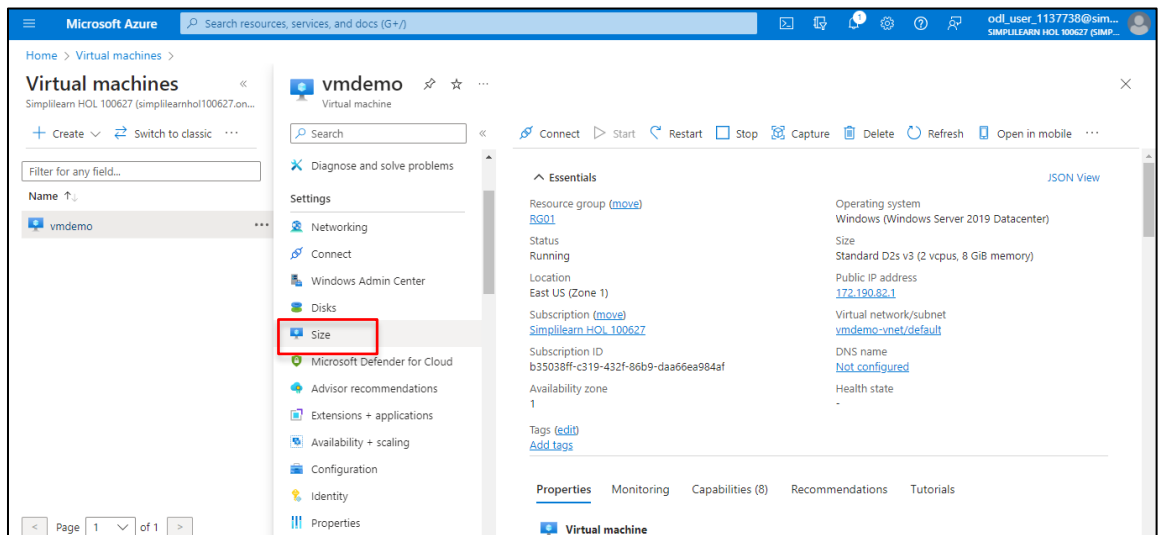

1.1 Log in to the Azure portal; search for and select **Virtual machines**

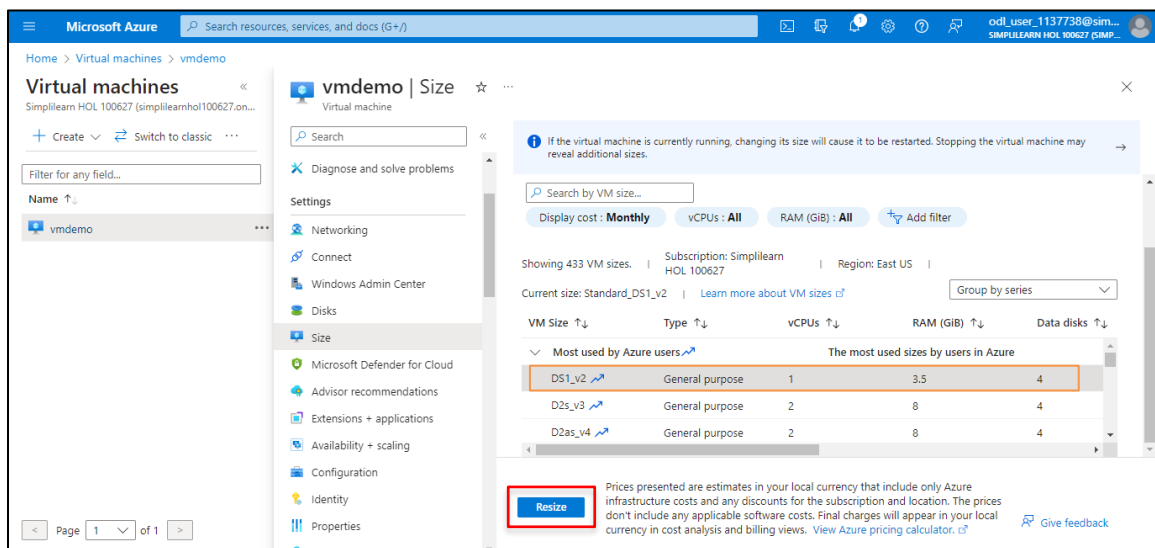

## 1.2 In the **Virtual machines** page, select the Azure VM **vmdemo** that you want to resize

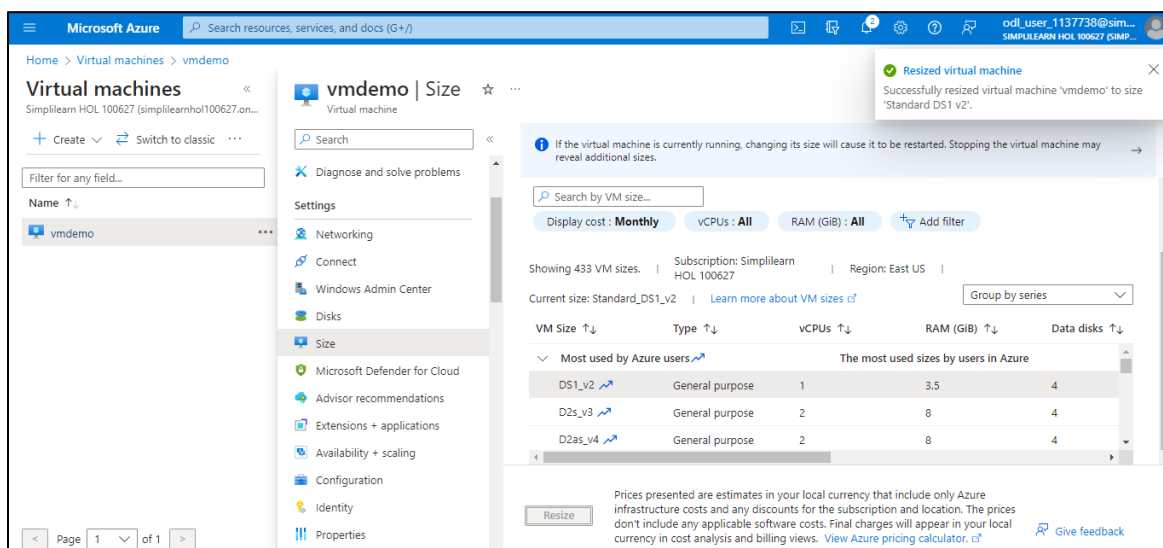

## 1.3 Under **Settings**, select **Size**

## 1.4 Choose a new size from the list of available sizes and then select **Resize**

Wait for a few seconds; the VM will be resized and a message confirming this will appear as shown in the screenshot below:

By following these steps, you have successfully resized a VM to manage computing resources effectively.
